

Tornado Safety Procedure for Residence Hall Residents**When a Tornado *WATCH* Is Issued. . .**

- Listen to local radio and TV stations for further updates.
- Be alert to changing weather conditions. Blowing debris or the sound of an approaching tornado may alert you. Many people say it sounds like a freight train.

When a Tornado *WARNING* Is Issued. . .

- If you are inside, go to a safe place you picked to protect yourself from glass and other flying objects. Go to the most internal part of your building or the lowest floor in your building—usually a hallway or a bathroom is the safest place. The tornado may be approaching your area.
- If you are outside, hurry to the basement or lowest level of a nearby sturdy building or lie flat in a ditch or low-lying area.
- If you are in a car or mobile home, get out immediately and head for safety (as above).

After the Tornado Passes . . .

- Watch out for fallen power lines and stay out of the damaged area.
- Listen to the radio for information and instructions.
- Use a flashlight to inspect for damage.
- Do not use candles at any time.
